YOUR MEDIUMISTIC NATURE

In our efforts to become a voice for the spirit world, we often get lost in what we think evidence and mediumship should be, rather than fully allowing the spirit world to use our natural mediumistic abilities to share with us what it is they need to say.

In this course Donna will help you to discover the amazing quality of your soul which enables connection with the spirit world. You'll be encouraged to recognize and embrace your abilities to create a stronger foundation for your mediumship.

Donna will guide you in discovering the untapped potential within your work and show you how your unique mediumship can make a meaningful impact on your recipients.

Explore the rich depth of evidence and emotion that your communicators bring forward that will help you deliver the spirit world's messages just as they were meant to be received. Learn to be an instrument of the loving, evidential communications, sharing what is important to the spirit world and being the best voice for spirit that you can be.

This course includes:

- Revealing your soul's natural ability for mediumship
- Building and refining your power
- Exploring the spirit world's evidence of continuous existence
- Touching souls on both sides of life
- Delivering meaningful messages
- Forging longed-for reunions between the two worlds

PSYCHIC INSIGHT

This workshop focuses on gaining a clearer understanding of the psychic faculty, and how this aspect of your development can contribute to the refinement of your personal power.

With Donna's gentle nurturing, you'll deepen and strengthen your psychic expression, gaining trust in the awareness of your experience, and expressing impressions with confidence.

PRIVATE MEDIUMSHIP TUITION

This is an opportunity for personal attention to your mediumship in a 1 to 1 setting with Donna, highlighting your strengths, resolving any potential blocks you may feel you have, and practicing your mediumship to receive guidance in determining next steps on your spiritual journey.

PLATFORM PROWESS

The general public's first experience of mediumship is often at a public demonstration, whether that be in a church or a centre. Demonstrating your mediumship is a wonderful opportunity to re-connect people with their loved ones, bringing forward not only messages of continued existence, but the presence, love and support from spirit.

Demonstrating mediumship on the platform takes courage and involves many factors to consider. This course offers a supportive and safe space to explore your skills and refine the presentation of your mediumship. With guidance from Donna, you'll be encouraged, nurtured, and inspired to uncover your unique strengths.

This intensive course includes:

- Developing the detail within your evidence
- Unfolding the personality and uniqueness of your communicators
- Enhancing your stage presence and professional delivery of your evidence
- Working positively with pressure and nerves before a demonstration
- Working with more than one communicator
- Aligning your evidence to achieve a balance
- Platform delivery techniques to quickly identify the correct recipient
- Sharing the platform with other workers
- Keeping the audience engaged and handling unexpected events
